New Fall Books

The Gathering Crisis in Federal Deposit Insurance

Edward J. Kane

Proposing a framework for reform, this timely study argues that the deposit-insurance system is headed for an expensive bureaucratic breakdown. It provides a comprehensive discussion of FDIC and FSLIC policies and procedures and describes the variety of risks facing deposit institutions and their implications for the insurance system. Kane points out the perverse risk-bearing incentives inherent in the current system and documents the extent of actual insolvency at insured institutions. Regulation of Economic Activity Series, edited by Richard Schmalensee.

Disorganized Crime

Illegal Markets and the Mafia

Peter Reuter

Winner of the 1984 Leslie T. Wilkins Award for the best book in criminology and criminal justice, *Disorganized Crime* uses industrial organization analysis to refute the notion that illegal markets are controlled by Mafia violence.
